Dear German Embassy,

I extend sincere appreciation on the occasion of the successful completion of the Library Book Project in Mar khams and Ban shul on 10 July 2008. The German Embassy provided 48,000RMB and the local schools contributed 4,300RMB which, collectively, purchased a total of 3,105 books (1,562 Tibetan books, 1,200, Chinese books, 523 English books); about 1,550 books per school. About 85% of the books are suitable for children; the remainder are source books for teachers.

The students and teachers of the schools are now using the new German Embassy funded books to enrich their knowledge, support the school curriculum, and address a variety of learning needs. Students are now learning a love of reading and self-reliance; they select books based on their own interests, as the photographs and associated captions below suggest.

Finally, this project has had a direct positive impact on education in these two primary schools. Thank you again for this remarkable library book project.

Sodnam rgyal (b. 1969), (second person from left, below), the Ban shul Tibetan Village Primary School headmaster said, "Before our school only had about thirty books in the 'library', which were collected from the teachers and local villagers for the children to read. This situation has persisted since the school was established in 1958. Now, with the German Embassy, contribution, our library conditions are quite different. Our school has the largest number of students staying in school and graduating, compared to other township schools and also, the largest group of students (130) in the township middle school come from this village."

Drugthar rgyal (b. 1966), the Mar khams Village Primary School headmaster, said, "The local school has never been able to get enough books for our library. However, now with the German Embassy's contribution, we now have many more Tibetan, Chinese, and English books that have captured the students' interest and will improve their reading and writing skills, as well as their level of general knowledge."

Ban shul Village Primary School.

Ban shul Village Primary School was established in 1958 as several tents. It now has five buildings used as classrooms, dormitories, a teachers' office, and a kitchen. In 2008, there were 333 students, 16 teachers, and four cooks--all were Tibetan. Compared to 2006, student enrollment had greatly increased and, except for the Chinese language, all subjects were taught in Tibetan.

Beginning in 2008, the school had English classes.

The students have a total of six classes per day--four in the morning and two in the afternoon.

As is the case with other Guinan County schools, the students have no weekends but rather, one four day break per month.

The school has 300 *mu* of fields which it rents to earn income--approximately 48,000 RMB per year--which is spent on such school expenses as food, and activities surrounding Children's Day and Teacher's Day.

Mar khams Village Primary School was established in 1952. In 2008, it has four classrooms and dormitories--four brick buildings in total in a square-walled yard. The 145 students, fifteen teachers, and three cooks are all local Tibetans. Most students board at school since their homes are ten to fifteen kilometers from the school in nomad areas.

Project Benefits:

- Students can easily access new knowledge based on their interest at school.
- A broad range of materials, e.g., illustrated storybooks for easy and quick understanding, picture cards for memorizing vocabulary, basic law books to instruct, references for promoting teachers' teaching methodology, and so on.
- Students develop transferable skills for sustaining knowledge beyond the classroom.
- Students communicate ideas using oral, written, visual cards, and books and ideas accumulate.
- Students learn intellectual independence as they choose the books by themselves that they wish to read.
- The students' knowledge in their areas of interests dramatically improves over time.

Project Effects:

- The students and teachers maintain a supportive and nurturing environment in the school libraries with the German Embassy new books.
- Students understanding of the world beyond their local area rapidly increases as they explore the library materials.

Realization of Project Aims:

- The project has remarkably enriched teachers’ lesson preparations and provided an new, resource-rich place for students to study.

LETTER OF APPRECIATION

(*Translation*)

Letter One

Dear German Embassy,

On 5 June 2008, we received, thanks to your generous help, such library books as picture books and dictionaries. Our school library is where students and teachers study modern informational techniques, scientific knowledge, transform students' learning environment, improve students' study habits, and broaden their knowledge base. We have been unable to afford the purchase of extracurricular books and materials for students and teachers, which dampened many students and teachers' desire to learn. Your funding of this project filled many of the blanks in the library, enriched our library with essential books, and brought enthusiastic energy to all of our entire students and teachers.

Finally, we extend sincere appreciation to you for giving us such precious books.

Mar khams Tibetan Village Primary School

Letter Two

Dear German Embassy,

First, our school must say thank you very much for funding such a remarkable project in our school. The school has long lacked books despite teachers' and students' desire to have a school library. However, due to lack of financial resources, we have never been able to get books other than what teachers contributed. Your wonderful assistance has allowed us to read and study books whenever we want to.

- School headmasters are in direct charge of the library. If the current headmasters of the local schools transfers elsewhere, the next headmaster will be in charge of the library, and the teachers and chosen students will also be in charge.
- School headmasters will work closely with the village leaders. Meanwhile, village leaders are important supervisors of the school libraries (e.g., they will check that the books are safe: whether the roof is leaking or not, the rooms tidy or not, and so on).
- Everyday, the school library will be open 12:30-2:30 p.m. and 5:30-7:30 p.m. except during holidays.
- Students from grades lower than Grande Three may not take books from the library; they must read the books in the library. Only the students higher than Grade Three can borrow books from the library.
- Students or teachers who borrow books from the library can only take one book at a time. If they tear it or lose it, they have to pay the original price of the book when they return it otherwise, the responsible members must pay.
- When the students and teachers are studying in the library they have to read the books quietly and may not chew gum. They may not bring sand or trash with them when they come into the library.
- When leaving the library at closing time, the responsible teacher or student will check the pockets of the visitors.
- Whoever is responsible for the library cannot personally borrow books or let outsiders borrow books.
- The library committee members who are responsible for the aforementioned conditions are listed below:

申 请 由 北 京 德 国 大 使 馆 资 助 的 小 型 技 术 合 作 项 的 系 列 问 题

1. **Name of the project?**

   Tibetan Library Book Project for Mar khams and Ban shul Tibetan Village Primary Schools

2. **Who is applying for the funding? (Name, contact person, address, telephone, fax, e-mail)**

   Name: Snying lcags rgyal (Robert)
   Address: c/o Kevin Stuart, PhD,
   Nationalities Department,
   Qinghai Education College,
   Xining City 810008, and Qinghai Province
   Telephone: 971-631-8505
   Email address: nnyangjaggyal@yahoo.com

3. **Who is responsible for carrying out the project? (Name, contact person, adress, phone, fax, e-mail)**

   Snying lcags rgyal (Robert) (contact information as above)

4. **Where is the project located? (Information regarding the province, region, population, etc.)**

   1. Mar khams སྨར་ཁམས། Tibetan Village Primary School, Go mang མགོ་མང་། Township, Mang rzhong མང་རྩེ་། County, Tsho lho མཚོ་ལྷོ། Tibetan Autonomous Prefecture, Qinghai མཚོ་སྔོན། Province. PR China.

   This village is situated in the northeast of Go mang Township, southwest of Xining City, 6 km from Go mang Township Town, 80 km from Mang rdzong County and 256 kilometres from Xining, the provincial capital.

2. Ban shul བན་ཤུལ། Tibetan Village Primary School, Sum mdo སུམ་མདོ། Township, Mang rzhong མང་རྩེ་། County, Tsho lho མཚོ་ལྷོ། Tibetan Autonomous Prefecture, is situated in the southeast of Sum mdo Township, 7 km from Sum mdo Township Town, 37 km from Mang rzhong County Town, and 220 kilometres from Xining.

5. **Does the (local) government agree with the project?** Yes.

6. What is the goal of the project? (Detailed description of the project)

Mar khams School was built in 1952, and has five grades. It has 120 students and 6 teachers (3 female and 3 male). The school classrooms and dormitories consist of four brick buildings in a square-walled yard. All the students and teachers are local Tibetans. Except for the Chinese and English languages, all the subjects are taught in Tibetan. The students have six classes a day. Students' homes are in nomad areas 10-20 km from the school and they are scattered in location; as a result, they board at school. The school has no weekend; instead, it has four days of holiday within a month as to comply with the school rules in Guinan County.

Wan Shul School was built in 1958, and has six grades in addition to the preparatory grade. It has 320 students and 9 teachers (2 female and 7 male). The school has five buildings used as classrooms, dormitories, a teacher's office, and a kitchen. All the students and teachers are local Tibetans. Except for the Chinese language, all the subjects are taught in Tibetan. The students have six classes per day--four in the morning and two in the afternoon.

These schools have poor access to modern education. Although the schools have a few books and magazines, these materials are far from sufficient. Furthermore:

- Because of the inaccessibility of outside entertainment, no qualified teachers are easily hired and thus the teaching methods and other methods still remain traditional and of limited quality.
- Because the students are interested in attending schools and have an intense wish to learn more, the students and teachers hope to have libraries within their schools and so enrich the students' knowledge.

7. What are the expected costs of this project? (Detailed budget proposal for entire project)

Items	Details	Total RMB
Tibetan books	45% of the library books	20,000
Chinese books	20% of the book	10,000

2,000RMB from Wan Shul Primary School			
Total School Contribution			**3,800.00**

Total Project Budget	**RMB51,800.00**

8. What is the expected timeframe for this project?

Date	***Activities***	***Participants***
June 2007	Write the proposal.	Headmasters, local teachers, Snying lcags rgyal
April 2008	Receive the fund.	Snying lcags rgyal
May	Collect local contribution.	Headmasters, teachers, Snying lcags rgyal
May	Purchase books in Xining, deliver them to Mar khams and Wan Shul schools.	Teachers, Snying lcags rgyal
May	Purchase bookcases from a local county shop.	Headmasters, Snying lcags rgyal
May	Put books in bookcases in school libraries.	Headmasters, teachers, students, Snying lcags rgyal
June	Final report sent.	Snying lcags rgyal

9. Who will be responsible for the sustainability of this project?

School headmasters will be in direct charge of the library. If the current headmasters of the local schools transfer, the next headmaster will be in charge of the library and the vice-headmaster will also be in charge. School headmasters will work closely with village leaders, who are important supervisors of the school libraries (e.g., they will check that the books are safe: whether the roof is leaking or not, the rooms tidy or not and so on). In addition, there will be a library committee of students and teaches who will open the library according to a library time schedule and keep it clean. If books are lost or something happens, responsible members must pay. Every day, the school library will be open 12:30-2:30 p.m. and 5:30-7:30 p.m., except for the four days of holiday monthly.

10. Are resulting costs expected? No.

11. **Are other donors/ organizations involved?** No.

12. Additional information:

1) Library Regulations:

- Librarians should open the library according to the library time schedule.
- Students from grades lower than three may not take the books out of the library or borrow them; they must read the books in the library. Only the students higher than Grade Three can borrow books from the library.
- Students or teachers who borrow books from the library can only take one book at a time. If they tear it or lose it, they have to pay the original price of the book when they return it.
- When the students and teachers are studying in the library they have to read the books quietly and may not chew gum. They may not bring sand or trash with when they come into the library.
- When leaving the library at closing time the responsible teacher or student will check the pockets of the visitors.
- Whoever is responsible for the library cannot personally borrow books or let outsiders borrow books.

2) Project Objectives and Achievements:

Objectives:

- To enrich students' education and give them a better view of the outside world.
- To improve local teachers' method of teaching with access to a broad range of library resources.
- To use the dictionaries, illustrated storybooks, and other suitable books.
- To further students' level of study beyond boring, dry textbooks.

Achievements:

- Students will score better on exams.
- Better preparation for class on the part of both students and teachers with the help of information from the library.
- Realization of how to use dictionaries and understanding the stories from drawings and pictures.
- Accumulation of knowledge from various books from the library.

Please enclose a map of the project region/province
